

What Does it Take to Make a Garden?....

2. KVIS Public Properties Committee is asked if they are interested.

1. Someone requests that the garden be redesigned.

20. Garden is complete except for the reading fairy to be added soon!

Hello,
"We're making improvements to the Kenmore Library building! Would the KVIS plan a new garden for us?"

"Absolutely!
How exciting!"

3. The garden is discussed and a design is made then submitted to the Library Board.

4. The Library Board approves the design and budget for the new garden.

8. KVIS volunteer drives car to rent van to pick up plants.

5. A trip is made to Don Spoth Farm to look at available plants.

6. Another trip to Spoth Farm is made to arrange for special pricing on select plants.

"Okey Dokey!"

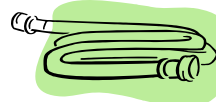

9. Drive van to farm.

17. Garden is planted but there's room for a few more so back out to the Farm for these.

18. More plants added and garden Watered.

19. Soaker hoses are placed and mulch is applied.

10. Load plants into van. Drive van to pick up car. Take plants to Library.

16. KVIS Volunteers gather to place the plants and plant them.

7. Grass is removed and the soil in the new bed is turned and made ready for new plants.

13. Another planting date is set but once again it rains!

11. Oh no! Big storm comes in so everything is loaded back into the van. No planting today!

14. Plants are watered and cared for at KVIS headquarters. They are loaded into the car. Several trips are made to get them to the Library for planting day.

12. Van is taken to KVIS headquarters and all the plants unloaded there. Van and car then drive to return the van. Car returns to Kenmore.

15. Finally a good day to plant!
